Displays

Trinity designers will work with your creative personnel to design the exact display you envision to meet your marketing and merchandising goals.

Whether the display is designed in corrugated or plastic we meticulously monitor the process from concept to completion. Our goal is to deliver your vision as cost effectively as possible. What we show here is only a small sampling of our capabilities.

PALLET DISPLAY

THREE CHANNEL POWER WING

- Channels designed to fit your product exactly
- Cost effective design
- High impact graphics

VACUUM FORM COUNTER DISPLAY

- Snap-In-Place Header
- Easy Set Up
- Perfect Product Fit

THREE SHELF POWER WING

- Very versatile
- Accommodates bottles, folding cartons & blister cards
- High impact graphics

MINI POWER WING DISPLAY

- Lithographic Printing
- Can be fitted on a floor stand or wall mounted with hooks

COMPLETE FLOOR STAND DISPLAYS

- Stand alone, self contained, and knocked down
- Packaged for easy assembly

CORRUGATED COUNTER DISPLAY

- Lithographic Printing
- Easy Set Up
- High Gloss Varnish Finish
- High Impact Graphics

Foam

We can die cut, laminate and sheet virtually any type of foam, offering the highest grades available on the market.

From polyurethane to microfoam we offer a wide range of foam types. Here is just a sampling of what we offer.

- Polyurethane
- Polyethylene
- Polypropylene
- EPS
- Foam Bags
- Micro Foam
- Roll Foams
- Foam Sheets
- EVA
- Cross linked
- Anti Static
- Conductive

DIE CUT, LAMINATED PINK ANTI-STATIC POLYURETHANE FOAM

DIE CUT POLYETHYLENE FOAM

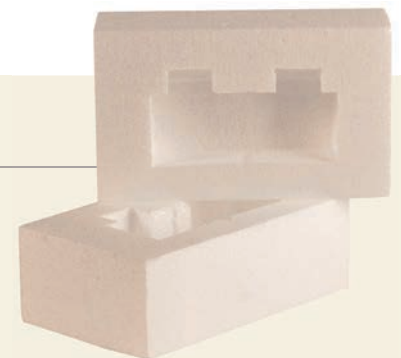

DIE CUT, LAMINATED HIGH DENSITY POLYURETHANE FOAM

- Excellent vibration dampening properties
- Perfect for high value, high 'fragility factor' items

CONVOLUTED FOAM LAMINATED TO MAILER

- Convoluted foam accommodates various sizes
- Strong, cost effective shipping container

EXPANDED POLYSTYRENE (EPS) END CAPS

- Cost effective material
- Minimal tooling costs
- Lightweight

Corrugated

Trinity prides itself in its quality and variety of corrugated products. We can produce cartons in all tests and sizes from small to large quantities. From a standard RSC (Regular Slotted Carton) to the most intricate die cuts, plain or printed.

PRINTED DIE CUT MAILER WITH INSERTS

PLAIN DIE CUT MAILER WITH INSERT

CARTON WITH PARTITIONS WITH TOP & BOTTOM CORNER CUT TRAYS

PRINTED DIE CUT

Specialty Boxes

Specialty Boxes include chipboard and SBS (Solid Bleached Sulfate) folding boxes, which are available in plain white, plain chipboard, or printed up to eight colors, with either an aqueous coating or a U.V. coating for increased luster.

We also offer Set-Up Boxes for very high-end retail applications. These boxes are already “set-up” and are produced with heavy caliper chipboard with a printed litho wrap. Interiors can be enhanced with either a vacuum formed clamshell or with a die-cut foam insert laminated with a “velvet-like” material for a super premium finish.
